

Public Awareness and Goals Committee Oct. 2022 Update

The Committee met this quarter on September 27th and reviewed the proposed agency objectives for FY 23. A particular focus was spent on reviewing the division of the education objectives into the other goal and focus areas since we are using Goal 2 as a placeholder this fiscal year.

The Committee endorsed and approved all objectives, making a singular edit to one objective in Goal 7, Focus Area 2 listed below.

Previous Version: Conduct outreach to Special Education parents and families through attendance at resource fairs or special events, reaching three out of six identified districts with highest achievement gaps between students with and without disabilities (Danville, Fredericksburg, Greenville, Petersburg, Prince Edward, Richmond).

Edited Version: Conduct outreach to Special Education parents and families through attendance at resource fairs or special events in three of the following six identified districts: Danville, Fredericksburg, Greenville, Petersburg, Prince Edward, and Richmond.

The final version of the objectives is attached.

The Committee will meet again in November or December to begin discussion of the survey process for 2023.
